## DVD HOME THEATER SYSTEM

### -If Equipped

The available DVD home theater system operates from 120-volt AC household current only, so you must have either the shoreline connected, the generator running, or the inverter turned on (if equipped).

The TV is connected to the Home Theater System which plays through theater speakers in the lounge area of the coach.

### Set TV Video Input

- Turn ON both TV and DVD player.
- Press TV/VIDEO or INPUT/SOURCE button on the remote or front of TV and select “Video 1” input on the TV.

The TV screen will display the DVD player logo when the correct input is selected.

### Play DVD with Theater Sound

- Insert DVD into player. DVD will begin to load automatically. TV screen will typically show “READING” or “LOADING.”
- The DVD may load directly to the main title/menu screen or it may begin to play previews. You may be able to skip previews if desired by pressing the NEXT (CH+ / CH-) button until you see the main menu screen.
- When the main menu screen appears, use the arrow buttons on the remote to select the desired entry or press the OK or PLAY buttons on the remote (or “Play” button on DVD player) to begin playing the feature.
- Volume is adjusted with the DVD remote (or volume control on DVD player).

### TV Sound Through Home Theater Speakers

When watching TV programs (broadcast, cable, or satellite), the TV normally plays sound through its own built-in stereo speakers. To connect TV sound output to home theater speakers

for a richer sound quality, follow these steps:

- Turn the TV and DVD player ON.
- Select the TV channel you wish to watch.
- Press FUNCTION button on DVD player or remote to set DVD player to “AV IN.”
- Use the TV Menu button to set TV audio output to “Variable Audio Output.” (See TV owner’s manual for instructions.) This will route TV stereo sound output through the home theater system.
- Select TV channels and adjust theater speaker volume with remote for either the TV or DVD.

*NOTE: Turn the volume level up significantly on the DVD player when using the home theater as an amp for the TV through the stereo system.*

### Dash Radio Sound through Home Theater Speakers -If Equipped

See “Radio – In-Dash” in *Section 3 - Driving Your Motor Home.*
